PROJECTS

EIGHTLEGGEDGEEEKS | WINNER OF ZOOHACKATHON BY US EMBASSY AND WWF

The Web App meant to scrape all the tweets with a particular query and analyse its suspiciousness. All tweets are given a score, as per pre-decided features, to determine the tweets; most likely used in wildlife trade. Finally, most likely tweets, with score>2, are returned and the net percentage of such tweets are described on a pie-chart.

SMARTSPI | 2ND PRIZE AT HACK@BVP

Project made during 24 hours long hackathon at Bharati Vidyapeeth College of Engineering. An android app, having multiple features, controlling lock with mobile's fingerprint sensor, controlling A/C by mobile, mood lighting control, and prediction for installation of Air Purifier.
